Dizin is located about 70km away from the capital Tehran, in the Alborz mountain range. It is nearby two other main ski resorts of Iran : Shemshak and Darbandsar.

The resort was created during the sixties, under the reign of **Mohammad Rezā Shāh**. The resort is known for the quality of its snow and for being one of **the highest ski resort in the world**.

Dizin ski resort is the biggest and the most diversified in Iran. The ski area is located in a large funnel shaped valley.

From the snow front, 4 lifts next to one another serve each sides of the all area – 3x Gondolas + 1x Chairlift. Due to Dizin's configuration, you can stay above 3000m and **ski all day long**, without getting bored ! The North exposure of the slopes guarantee great snow quality all along the ski season. The skiable are is 470 ha and the average snow depth is between 2 and 6 meters.

For freeskiing, Dizin is a goldmine ! Besides the great powder field located between the slopes, the resort offers numerous off-pistes trails with perfect view on Mount Damavand.

It is definitely « **the place to ski** » in Iran. With few investments, a good daily grooming and Dizin would be for sure a 5* international class ski resort !

Darbandsar is now equipped with 2x four seats chairlifts, 1x two seats chairlift, 1x gondola and 2 ski lifts.

Starting from the summit, the main slope is wide, groomed everyday and offers 900m of vertical drop. Half of it is equipped with a few snow makers and lights for night skiing. Away from this main axis, a ski lift serves an other red slope.

Until the beginning of the 20th century, Shemshak was a small village lost in the mountain. With the discovery of important coal deposits, the village grew and a road connecting Shemshak to Tehran was built.

At the end of the mining operations, the village became a leisure place for rich people. In 1958, Shemshak ski resort was created, offering to the upper class of Tehran a place to learn and practice this trendy sport from Europe.

Nowadays, Shemshak is still a famous place for Iranian to come relax and have fun! Even-though the resort hasn't expand since its opening, it is still one of the largest in Iran. The proximity of Shemshak with other ski resorts like Darbandsar and Dizin, makes it the Ski Capital of Iran !

Shemshak ski area is the third biggest in Iran behind Dizin and Darbandsar. The 2x chairlifts (2 seats) starting from the village serve the summit.
